YOUR RIGHTS:

You have the following rights regarding Health Information we have about you:

Right to Inspect and Copy. You have a right to inspect and copy Health Information that may be used to make decisions about your care or payment for your care. This includes medical and billing records, other than psychotherapy notes. To inspect and copy this Health Information, you must make your request, in writing, to our Medical Records department. We have up to 30 days to make your Protected Health Information available to you and we may charge you a reasonable fee for the costs of copying, mailing or other supplies associated with your request. We may not charge you a fee if you need the information for a claim for benefits under the Social Security Act or any other state or federal needs-based benefit program. Right to an Electronic Copy of Electronic Medical Records. If your Protected Health Information is maintained in an electronic format (known as an electronic medical record or an electronic health record), you have the right to request that an electronic copy of your record be given to you or transmitted to another individual or entity. We will make every effort to provide access to your Protected Health Information in the form or format you request, if it is readily producible in such form or format. For example, you could ask that we not share information about a particular diagnosis or treatment with your spouse. We are not required to agree to your request unless you are asking us to restrict the use and disclosure of your Protected Health Information to a health plan for payment or health care operation purposes and such information you wish to restrict pertains solely to a health care item or service for which you have paid us "out-of-pocket" in full. If we agree, we will comply with your request unless the information is needed to provide you with emergency treatment.

We will only make this disclosure if you agree or when required or authorized by law.

Health Oversight Activities. We may disclose Health Information to a health oversight agency for activities authorized by law. These oversight activities include, for example, audits, investigations, inspections, and licensure. These activities are necessary for the government to monitor the health care system, government programs, and compliance with civil rights laws.
